

Explore West Sussex

Long sprawling beaches a pebble's throw from your luxury beachfront home

Britain is home to some of the most magnificent and diverse beaches, and to us, few are more charming than the idyllic shores of West Sussex. A long sweep of golden and pebble-dashed shoreline, each beach is unique and offers something different to those who visit; whether that's a playground for building sand-castles, a chance to take part in some watersports, or a scenic backdrop for long meandering walks.

East Preston Beach

Now we may be biased, but being dog-friendly all year round, the East Preston beach is our favorite in the area. Quite literally on your doorstep, this beach is reserved mainly for locals due to there being no parking on the estate for day trippers. This means few crowds, and more time to explore with your four-legged friend. Like most of the shores on this coast, it is a pebble beach with wooden break waters, with beautiful, flat sands revealing themselves at low tide. For the sailing enthusiasts amongst you, this is a popular sailing location.

Littlehampton Beach

Littlehampton comprises of two beaches: West Beach and the award-winning East Beach. Give your feet a rest and take in the view from Britain's longest beach at East Beach. Or head to West Beach (one of three beaches in West Sussex with sand dune systems) for a more peaceful atmosphere and a stroll through the dunes on wooden walkways.

Climbing Beach
